18 Ways to Enhance your Wealth

3. Place a sailing ship in the foyer

Place a sailing ship symbol in the foyer to signify wealth coming in. The ship should be sailing in and not out of the home or office. The ship must not be empty. Fill it with coins, dollar bills, ingots, precious stones and jewellery.

4. Boost your career with good mentor luck

Hang a picture of your mentor on the northwest wall of your office or at home to create the patronage luck and to attract influential and successful friends. Mentor luck comes in the form of greater opportu-

nities for advancement within the work environment.

Sailing ships made of gold and laden with gold ingots, coins or precious gems bring excellent wealth and business luck. Creating a harbour of ships signifies many source of income.

6. The amazing wealth wallet

Create a wealth wallet. Tie three Chinese coins together and place in a red packet (Ang Pow). Keep the red packet in the wealth wallet. The wealth wallet must not look cheap. It must have a dragon symbol on it. It is extremely auspicious when the wallet is in red, gold or silver colours.

7. A bank behind you ensures financial support

Hang a picture of a well-established bank to signify continuous financial support.

8. Leafy green plants increase incomes

Display leafy green plants in the southeast part of the living room or office. The plants must be healthy and have thick round leaves such as those on the jade plant.

9. Create a wealth vase

Make your own personal wealth vase and keep it well

hidden. The vase has to have a fat bottom and a small neck with a lid. Fill the vase with various essential wealth essences.

10. Sleep auspiciously

Sleep with your head pointing towards your success and wealth direction based on the KUA formula. Your bed must have a headboard and a footboard. The headboard must be firmly placed against a solid wall. Your feet should not point towards the bedroom door.

11. Keep an aquarium

An aquarium of nine goldfish (eight red or gold and one black) in the southeast is one way to jump start your money luck. Keep the aquarium clean all times.

12. Three-legged toads attract prosperity

Place a set of three, six or nine three-legged toads under a table or behind a couch in your living or family room area. This little creature is a universal favourite with feng shui enthusiasts around the world mainly because it attracts prosperity vibes into households very efficiently.

13. Have a "small change" bank in your northwest

Keep small change in a metal container and place this in the west or northwest to activate the patronage and successor luck.

14. Money plant on your desk to increase your income...

To create the luck of financial success at work, look for a money or jade plant and place it on the southeast sector of your desk. Make sure the plant stays healthy and sturdy.

15. Keep handbags and wallets free of clutter

Always have your handbag and wallet clutter free. It is a good idea to undertake a spring cleaning of your handbag at least once a month. This way, chi energy associated with your finances and well being never has a chance to become stagnant.

16. Red wallet brings good cash flow

Use a bright red wallet to create the luck of constantly flowing money so you never run out of cash. Place three gold Chinese prosperity coins tied in red or gold string in a red packet and keep it in the red wallet.

Toilets located in the southeast of your home will flush away your money. The southeast of a home/office represents Wealth Luck. If you have a toilet in this sector, place a six-rod hollow all-metal windchime.
